WEB DEVELOPMENT PORTFOLIO

Official Portfolio
Developed personal online portfolio to showcase skills in web design/development. Using html, css, and the css bootstrap framework, the portfolio exhibits projects in web development as well as other works of art from my creative experiences.

Movie and Drink Matchmaker
Collaborating with a team, a web application was developed to return movie and drink suggestions depending on the category selection from the user, all while allowing the user to save suggestions for future reference. The success of the application involved using html, css, bulma css framework, javascript/jquery.
